

Davis Unlimited Information Technologies, Inc.

CORPORATE OVERVIEW

Founded in 2010, DUIT, a woman- and minority-owned IT leader, delivers cutting-edge AI solutions for the DoD and federal government. Specializing in systems engineering, cybersecurity, and PKI as a service, we safeguard critical infrastructure with innovative, uncompromising protection. As an independent test agent, we ensure mission success through rigorous evaluations, empowering national security with reliability and expertise.

Cyber Security

- Cutting-edge AI-driven cybersecurity solutions to detect, prevent, and respond to evolving threats in real time
- Expertise in risk management, adversarial assessments, and Red/Blue team support to secure mission-critical systems
- Implement zero-trust architecture, post-quantum cryptography, and compliance with NIST, FISMA, and CMMC frameworks

PKI as a Service

- Secure, scalable PKI solutions ensuring encrypted communication, authentication, and data integrity
- Expertise in DOD Public Key and Key Management Infrastructure, safeguarding classified mission-critical data
- End-to-end certificate lifecycle management, enabling seamless digital identity protection and compliance

Systems Engineering

- ISSE, ISSO, and ISSM expertise
- Senior consultants drive technical and programmatic requirements to ensure secure, mission-ready system design
- Proven interoperability testing, including three operational assessments with JITC

Cleared IT Staffing

- 15+ years staffing candidates with a TS/SCI FSP and Below
- Extensive experience conducting operational assessments
- Proven methodology ensuring compliance, risk reduction, and seamless system integration
